

# AUTHORISED RACKET COVERINGS:

1 JANUARY 2005 – 30 JUNE 2005\*

LIST NO. 25B also on the Internet: [www.ittf.com](http://www.ittf.com) (Equipment, Racket Coverings)

*Information that appeared for the first time in list 25 is shown in italics.  
The new rubbers entering the list in October (List 25B) are in **bold** and italics.*

Dark sponge (black, blue, brown, green, purple, red) should not be used under translucent red coverings (most red coverings are translucent). It is the player's responsibility to use a racket covering which appears bright red, and the use of a dark sponge under a translucent top sheet is likely to make the rubber illegal. Even if racket coverings appear in this List without reference to sponge, the Law 2.4.3. governs the use of sponge.

Many racket coverings contain additional text in the rubber mould apart from the brand name and suppliers name and this does not disqualify them from the List of Authorised Racket Coverings. However, the text given in the list must be there (for example, Butterfly Sriver L and Butterfly Sriver S have the addition "D13"). Such texts could be positioned anywhere in the area reserved for the text on the rubber.

\*The list will be published twice during the season (List 25 & List 25B). List 25B will include any new rubbers and any withdrawals according to the wish of the manufacturers. List 25B will be published in October and is valid from 1 January until 30 June 2005.

## LEGEND

- [R] or [B] Indicates that this brand name is available in only red or black respectively.  
 "Long" Under 'Type', this is used where the aspect ratio (= pimple height / pimple diameter) is larger than 0.9.  
 ‡ Indicates a version available with a textile reinforcement, intended to be used without sponge.

While it is our intention in publishing this list to describe what may be used in international play, we cannot guarantee that everything listed here will continue to be authorised. From time to time we may find that a sample has changed in its manufacture.

If we are unable to persuade the manufacturer to make the necessary change we have no alternative but to remove the authorisation.

When we do that an announcement will be printed in the ITTF Bulletin and the Internet list on "<http://www.ittf.com>" will be updated.

After publishing this list it will appear on the Internet.

This Internet version will then be updated for printing errors and omissions, but no new rubbers will normally enter this list - as usual.
